CAELIN Project

REFERENCE: NMN-4-568, NMN-4-562

1. We would appreciate further detailed comments concerning the CAELIN operation and its production potentialities. It is our understanding that CAELIN's production lies solely in the ICOR field, with possible future access to clandestine church intelligence reports. However, no CAELIN ICOR reports, such as referred to by you in NMN-4-568, Part 6, and in NMN-4-562, para 2, have as yet been received by this office.

2. According to our files, CAELIN has yielded the following reports in 1948:

||| NMN-4-487 (which was disseminated to a customer agency)  
NMN-4-488 (which was in answer to NMN-4-478)

3. In view of his limited 1947 and 1948 production, we assume that you have increased his gratuity in the hope that he will become more valuable in future, in connection with the ICOR Project or possibly clandestine church intelligence.
